

# Harsh Kushwaha

Frontend Developer

Noida, Uttar Pradesh, India | +91 8737812696 | knp.harsh@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Frontend Developer with 4 years of experience building responsive, interactive, and scalable UIs using JavaScript (ES6+), and modern CSS frameworks. Skilled at translating Figma designs to pixel-perfect code, implementing theme systems, optimizing SEO with semantic HTML, and ensuring cross-browser compatibility. Experienced in delivering SaaS and e-commerce web applications for international clients.

## Skills:

- Frontend: JavaScript (ES6+), HTML5, CSS3, SCSS, TailwindCSS, Bootstrap, MUI
- Tools & Workflow: Git, GitLab, Jira, Agile/Scrum
- Other: SEO-friendly markup, Responsive Web Design, Cross-browser Compatibility

## Experience:

### Software Developer II – Inteligencia Analytics Pvt. Ltd., Noida (Dec 2024 – Present)

- Spearheaded frontend development of an internal HRMS SaaS platform for 2500+ employees, designed for B2B subscription-based commercialization.
- Built reusable components and implemented Dark/Light Mode using SCSS and JavaScript.
- Optimized UI for responsiveness and cross-browser support.

### Frontend Developer – Kloudrac Softwares Pvt. Ltd., Noida (Apr 2024 – Dec 2024)

#### (Payroll for HT Digital Streams)

- Managed frontend for Hindustan Times, HT Auto, and LiveMint websites.
- Converted Figma designs to responsive components, ensuring pixel-perfect UI.
- Implemented theme systems and optimized UI performance across high-traffic digital platforms.

### UI Developer – Alethe Labs India Pvt. Ltd., Gurugram (Aug 2023 – Apr 2024)

- Delivered data visualization dashboards for AI/ML-driven government projects.
- Built interactive tables, charts, and maps for pipeline monitoring, enhancing data readability.
- Collaborated with AI/ML engineers and designers to create user-friendly UI for complex datasets.

### UI/UX Developer – E Global Soft Solutions, Delhi (Jan 2022 – Aug 2023)

- Developed and maintained customer support websites, collaborating with SEO and backend teams.
- Improved page views by 40%+ through semantic HTML, optimized CSS, and responsive layouts.

## Education:

Bachelor of Technology (Computer Science) – Meerut Institute of Technology, Uttar Pradesh  
2019 – 2023 | CGPA: 6.8/10

## Key Projects:

1. HRMS SaaS Platform (B2B Subscription-Based) – Full frontend implementation with reusable components, theme system, and API integration.
2. E-commerce Frontend Enhancements – Optimized UX for Magento-based retail platforms, improving responsiveness and UI consistency.
3. Data Visualization Dashboard – Developed dynamic tables and charts for industrial monitoring using React and SCSS.
